ABS Wind 06.2023

## Introducing ABS Power Conversion! A new brand of power converters and electrical and electronic systems for the wind and solar industries

We are thrilled to share an exciting announcement that we are confident will greatly benefit you. As a trusted client of ABS Wind, we wanted you to be among the first to know about the launch of our new company, ABS Power Conversion.

ABS Wind has established itself as a global leader in the repair and supply of critical components for wind turbines, forming strategic alliances with leading manufacturers worldwide. Now, with the creation of ABS Power Conversion, we are expanding our range of solutions to include the supply and repair of power converters and electrical and electronic systems for both onshore and offshore wind turbines, suitable for multiple turbine models, as well as the solar energy industry. Additionally, we will be offering technical support and repair services in the USA and LATAM regions, leveraging ABS Wind's extensive logistics network and specialized workshops, with over 25 years of industry experience.

We look forward to continuing our collaboration and are eager to show you the benefits this new service line will offer. We are confident that this expansion will enhance our ability to provide you with even better and more comprehensive service.

This new brand within the ABS Wind ecosystem will enable significant synergies in our customers' repair and refurbishment strategies, offering the ability to cover products and solutions for both mechanical and electrical/electronic components of wind turbines through a single trusted provider.

We look forward to continuing our collaboration and are eager to show you the benefits this new service line will offer. We are confident that this expansion will enhance our ability to provide you with even better and more comprehensive service.
